

QUALITY SERVICE

Established for sixteen years - Homecraft is a family run interiors company, with showrooms located in both Wollaton and Radcliffe on Trent. Specialising in soft furnishings, curtains and blinds. Breeze finds out what makes them so successful..

Over the years Homecraft has gained a reputation for supplying quality made to measure curtains and blinds for the home. In recent years they have also added a selection of complimentary homeware, gifts, mirrors, lighting, wall art, wallpaper, rugs and a range of furniture that is both environmentally and socially responsible without compromising on comfort and style.

With well-located and free parking in both locations Homecraft can conveniently offer the full interiors experience, outside the hustle and bustle of the busy city centre and retail park shopping!

Homecraft, originally based in West Bridgford has recently moved to Wollaton in April of this year. The move has given them more space to offer a bigger range of fabrics as well as a constantly expanding collection of wallpapers.

Homecraft are always keeping up to date with latest trends and are therefore constantly bringing in new brands. Recent arrivals include: Villa Nova and Bill Beaumont fabrics, these sit alongside existing collections including the popular Prestigious range, Montgomery, Hardys and Globaltex to name but a few.

With Homecraft's shop staff, machinist and fitters notching up over 150 years combined experience in the textiles industry they pride themselves on an excellent and knowledgeable service from outset to completion.

So if you are looking for a unique gift or a full home make over, Homecraft welcome you to join them in one of their show rooms.

Dedicated to making homes beautiful.
